

# NORCAL URISA Quarterly Meeting

Join us for our February meeting  
As we present:

## *“Information Technology For GIS Professionals”*

**When:** February 14, 2007 1 pm – 4 pm

**Where:** City of West Sacramento Civic Center  
1110 W. Capitol Ave  
West Sacramento, California

### **FREE PARKING!**

Not all GIS professionals come from IT departments, and sometimes it is hard to convey GIS needs to non-GIS persons. This meeting is an attempt to give the GIS professional a better understanding of the data management best practices (data storage/backups), Networking strategies (data sharing), Computer technology (new processors – dual core vs. dual processor, video cards, etc), and the deployment of all of the above.

The following topics will be presented by our guest speakers:

Data management/data storage/backups – Tom Riggins (EMC)

Network/data sharing - Tom Riggins (EMC) for Ken Kerrick (Nolte)

Computers – John Olson, Kristy Burns, Helena Gavilanes, & Jim Niemi (Insight-HP)

System Design and Implementation – Brian Hoefler (Vestra Resources)

You don't have to be a chapter member to attend this meeting, but we encourage you to join this organization and lend your support to future topics and meetings.

Be sure to invite anyone you think may be interested in this meeting!
